ERH-200

Standard Features

- Quiet 2-Speed Drive
- Lightweight Construction
- Micro-Pendant Control
- Quick-Change Battery Box
- Quick-Change Tooling Mount
- Battery-Charge Meter
- Manual Tooling

- 200lbs (91kg) Handling Capacity
- Powered Lifting
- Versatile Multipurpose Tooling Designs
- Multiple Base and Lift Height Options
- Ergonomic and Efficient

ERH Manual Tooling Options

Lateral V-Cradle

Horizontal Probe

Frontal V-Cradle

Flat Platform

Swivel V-Cradle

Roll Turner

Probe Cradle

The ERH-200 was designed for lighter duty applications, it has numerous tooling options for a wide variety of uses.

ERH-400

Standard Features

- Quiet 2-Speed Drive
- Lightweight Construction
- Micro-Pendant Control
- Quick-Change Battery Box
- Battery-Charge Meter
- Up to 4 Powered Functions
- Powered or Manual tooling

The ERH-400 offers powered tooling options like shaft handlers, outside diameter clamps, and electric turners.

Shaft Handler

OD Clamp

Battery Box

- 400lbs (190kg) Handling Capacity
- Powered Lifting and Tooling
- Multiple Base and Lift Height Options
- Adjustable Lift Height Sensors and Pushers
- Optional Electric Remote Retract

The ERH-400 excels with both powered and manual tooling to handle rolls, shafts, and other materials. This design is a handling powerhouse, equipped to accommodate many applications.

Control Box & Pendant

Our sales engineers will gladly help you determine what machine best fits your needs. Use the Quick Application guide below and contact us for assistance!

Base Styles

Euro Base

Swivel Base

Straddle Base

Probes, turners, and cradles are just some of the tooling options we offer. If you have a more complex handling need, our engineers can design tooling just for you!

How To:

1. Determine your initial requirements using the Application Guide to the right.
2. Gather all available information.
3. Contact us with your application information for additional guidance.

Quick Application Guide

Roll Specifications

Max. Weight: _____
 Max. Roll Width: _____
 Min. Roll Width: _____
 Max. Roll Diameter: _____
 Rolled Material: _____
 Core Size(s): _____
 Core Material: _____

Roll Orientations

What do you want to do:
 Lift only Horizontal Vertical
 Lift & Turn By the Core
 By the OD Combination ID/OD

Operating Requirements

Pallet W _____ L _____ H _____
 Access Full 4 sides & corners
 Limited _____ sides Rolls / Layer _____
 Stack Height _____

Min Lift _____ Max Lift _____
